Serving Poland in the shadows

 We acquire exclusive information, crucial for the external security of the Republic of Poland

We identify threats, monitor  international security situation and create international security strategy of the Republic of Poland

 We recognise new threats and global challenges. We sift through the large amount of data and select only those items which prove to be reliable, significant and useful

We provide information directly to the most important state authorities of the Republic of Poland. We maintain security of the Republic of Poland and strengthen international position of the state
